BREAKING NEWS! ELVES ARE 100% IMMUNE TO COVID 19 - HOLIDAY VISITS TO HAPPEN!

****CONFIRMING EARLIER REPORTS OF EASTER BUNNY AND TOOTH FAIRY IMMUNITY.****

Elf Scientists at the North Pole Human Research and Mystery Center have released statements confirming that Magical Creatures are 100% immune to the new Covid 19 virus that is affecting so many of our human friends. Earlier reports from the Easter Bunny, who was one of the first to risk exposure back in the Spring, had everyone hopeful when he returned home unharmed. The Tooth Fairy has also shown no signs of the virus, but she often wears a mask when entering homes to be extra safe. This new certainty will make everyone feel safer as the holiday season begins.

Santa Claus has also confirmed that all holiday visits to see human families will be scheduled as usual. Since elves can neither contract or carry the virus, elves' biggest responsibility right now is to bring cheer where it's needed most!

JINGLE BELL ELVES PREPARE FOR ANOTHER BUSY SEASON!

The Jingle Bell Elves gear up for another exciting season after reporting a very successful 2019. Santa was said to be thrilled by the number of Believe Bells he collected on Christmas Eve and found it to be his jolliest journey yet! More families are expected to participate in the "Season's Hottest Tradition" as described by the North

Pole Newsline, Dec. 2019. Holly and her team are excited to bring cheer and simple delight to the homes of more families around the U.S. "We were really hoping to go global this year and recruit more families from all over, but that unfortunate virus changed a few of our plans. I know we'll be traveling the world in future holiday seasons!" said the cheerful Chief Jingle Bell Elf.

Holly also mentioned that they made a few small changes this year with the help of a trusted human family that has been secretly assisting the Jingle Bell Elf team since the tradition started. And with the immunity news, last year's families can expect to find bells to collect for Santa's sleigh again. "We were so relieved by the news and can't wait to start hiding bells again! With families staying home more than usual, we hope to deliver some good old fashioned fun!" stated a member of the JBE team.

The Jingle Bell Elves are currently looking for cheerful and energetic team members. Please stop by the North Pole Job Center to find out more information.

WARDROBE COMMITTEE MAKES SPECIAL MASK TO FIT SANTA'S BEARD

The Wardrobe Committee Elves, along with help from Mrs. Claus, are working hard on creating the perfect mask for Santa's big visit on Christmas Eve. His extra large beard continues to be the biggest hurdle so far.

Although reports now show Magical Creatures are immune to Covid 19, it's important for Santa to stay safe and help keep others safe as well. Once the new mask is perfected, similar versions will be sent to many of Santa's helpers (human helpers) for the holiday season festivities.

Mrs. Claus quoted "We thought it was very important for Santa to set a good example." The new mask is reported to match his classic red suit and will help him from breathing in any soot when going down chimneys as well.

ONLINE ORDERING EXPECTED TO INCREASE AT N.P.

Online shopping has become the "new norm" for many of our human friends and now the North Pole is adapting too. Shopping online is nothing new to the North Pole, but a big increase in ordering, along with extra help from shipping partners, is certainly expected this year.

When recently interviewed, Santa stated being quite pleased with the variety of toys available right at his fingertips. "It's far different than my wood whittling days!" stated Santa followed by a hefty chuckle. He also believes that online toy shopping may be much easier for his top Shopper Elves. "Anything to make the season easier and more cheerful for everyone is good to me." stated Santa.

HELP WANTED

Do you like scavenger hunts, or have an eye for good hiding places? Are you as quiet as a Christmas mouse?

If YES, then we have the perfect opportunity for you!
